EDUCATION

University of Pisa

Bachelor in Computer Science

Sep. 2025 – Current

Pisa, Italy

EXPERIENCE

Frontend Developer Intern

Metriks.ai

Jan. 2024 – Feb. 2024

Arezzo, Italy

- Built an internal email signature generator with real-time preview, exporting valid HTML output for use across multiple client companies
- Developed a priority-based task manager with deadline tracking, session cookies and client-side caching for data persistence
- Migrated both tools from JavaScript to TypeScript during development, improving type safety and code maintainability
- Used Next.js, React, shadcn/ui and Phosphor Icons; worked within a private Git workflow following team conventions

PROJECTS

Personal Portfolios | alessiocapecchi.com

2024 – Current

- Built and maintain two personal portfolios (developer and photography) with Next.js, TypeScript, Tailwind and shadcn/ui
- Implemented bilingual routing (IT/EN) with next-intl

Freelance Web Developer | teachandtaste.it, adrianigiovanni.com

2025 – Current

- Delivered 2 production websites for local clients, both live and actively maintained with ongoing update requests
- Handled the full process autonomously: requirements, design, development and deployment
- Built with Next.js and TypeScript, focusing on performance and clean codebase
- Implemented bilingual support (Italian / English) using next-intl, managing routing and content localization
